PROFESSIONAL SUMMARY

Detail-oriented Software Tester / QA Engineer skilled in Manual and Automation Testing, STLC, SDLC, Functional, Regression, Smoke, Sanity, Integration, System, UAT, Exploratory, Compatibility, Usability, and Accessibility Testing. Experienced in test case design, test execution, defect reporting, API Testing, Jira, and Playwright, with a strong focus on software quality and defect identification.

QA / AUTOMATION TESTING SKILLS (CERTIFIED COURSE)

Manual Testing: Functional, Regression, Smoke & Sanity, Integration, System, UAT, Exploratory, End-to-End Testing
Test Process: SDLC, STLC, Test Case Design & Execution, Defect Tracking & Reporting, Agile/Scrum
Automation Testing: Selenium WebDriver, Playwright, Cypress, PyTest, Page Object Model (POM), Data-Driven Testing, Web UI Automation, Automated Regression Testing
API Testing: Postman, REST API Testing, API Automation, JSON/XML, HTTP Methods, Status Codes, Authentication & Authorization, Request/Response Validation
Database Testing: CRUD Validation
Programming: Python
CI/CD & Tools: Git, GitHub, Jira, Bugzilla
Languages: Python, SQL, JavaScript, R, C, C#
Frameworks: Django, Flask, React, Vite
Methodologies: Waterfall, SDLC, Ticket Systems, Budget Planning

WORK EXPERIENCE

Dharwad Hubballi Tutor - Software Tester **June 2026 – October 2026**
https://www.dharwadhubballitutor.com/

- Gained practical, mentor-guided experience in software quality assurance, applying both manual and automated testing techniques on a live production website.
- Designed and executed test cases for real-time web workflows, identifying issues and logging defects through to resolution.
- Wrote and ran Python-based automation scripts using Playwright to validate site functionality and reduce repetitive manual checks.
- Took part in Agile review cycles, tracking test outcomes and defect status to support timely, quality-driven releases.

Infokshetra - Software Development Intern **January 2026 – February 2026**

- Investigated and resolved backend inefficiencies using Flask, enhancing application response time.
- Consolidated relational database schemas to eliminate redundancy, advancing query performance and data integrity.
- Executed systematic code reviews and SQL query optimizations, yielding measurable stability improvements.
- Collaborated with senior developers to document workflows and administer version-controlled repositories on GitHub.

KEY PROJECTS

Dharwad Hubballi Tutor Live Demo
Playwright · Python · JavaScript/TypeScript · GitHub Actions · Page Object Model

- Developed an end-to-end automation framework using Playwright with Python and JavaScript, following the Page Object Model to test course navigation, registration, contact, demo, internship, and placement workflows across Chromium, Firefox, and WebKit.
- Integrated automated test execution with GitHub Actions CI/CD and HTML reporting to support cross-browser validation and continuous quality checks.

Arna Tours & Travels Live Demo
Manual Testing · Playwright · JavaScript · Playwright Test · Regression Testing

- Performed end-to-end manual and automation testing of a travel booking app using Playwright, JavaScript, and Playwright Test, covering functional, positive/negative, regression, and UI test cases.
- Validated key workflows such as login, tour search, booking, payment, cancellation, and admin functionalities, automating critical scenarios and documenting results with execution evidence and reports.

Institute Management Automation View on GitHub
Python · Playwright · Pytest · DDT · Page Object Model

- Developed a Python-based UI test automation framework using Playwright, Pytest, and the Page Object Model, with data-driven testing for reusability and easy maintenance.
- Automated sanity tests for login, course creation, trainer management, and enquiry workflows, with screenshots, assertions, and HTML test reports.

HR Management System View on GitHub

Full Stack Development · CRUD Operations · Authentication

- Developed a full-stack HR Management System with authentication, profile management, and department management to streamline employee information handling.
- Integrated frontend and backend for CRUD operations with responsive dashboards and clean UI, and deployed it on Vercel for public access.

Women Health Care Management System View on GitHub

Python · Flask · MySQL · HTML · CSS · JavaScript

- Developed a web-based system to manage women's health records, appointments, and medical history, with secure role-based authentication for patients, doctors, and administrators.
- Designed optimized database schemas and REST APIs for efficient retrieval and management of health data, ensuring data privacy compliance.

FREELANCING

Pallaki Residency Live Demo

- Performed manual, functional, smoke, UI, responsive, and cross-browser testing of Rooms, Gallery, Amenities, and Contact modules.
- Executed test scenarios, identified and reported defects, and performed retesting and regression testing to ensure website functionality and usability.

SachinInfluenceMedia Live Demo

- Executed functional, system, integration, UI, and data validation testing for influencer tracking, audience analytics, and performance reporting modules.
- Designed and executed test scenarios, validated reported data and user workflows, identified defects, and performed retesting to ensure accuracy and reliability.

EDUCATION

- **BCA** — Chetana BCA & BBA College, RCUB University, 2026 | CGPA 7.25
- **PUC – Commerce** — Karnataka State Board, 2023 | 80%
- **SSLC** — Karnataka State Board, 2021 | 85%

CERTIFICATIONS

- Software Testing — Manual & Automation Testing Certified Course - Link
- Software Testing Internship — Dharwad Hubballi Tutor - Link
- Python Full Stack Development using React JS — Infokshetra Internship - Link
- UX/UI Design — Innoovatum - Link

SOFT SKILLS & LANGUAGES

Soft Skills: Problem Solving, Root Cause Analysis, Logical Thinking, Report Writing, Team Collaboration, Client Communication
Languages: Kannada, English, Hindi
